

# Permit - IT Fact Sheet

Permitting and Inspections Tracking Software Solutions

## What our customers say about WindoWare's software and support...

*"It works! Thanks! We are one of the few offices in the city with computer programs that work for us, and that can be modified as our needs change." - Judy James, City of Fairfax*

*"Great service! Thanks!" - Jimmy English, City of Bedford*

## Permit-IT's Features and Benefits Include:

- Comprehensive Permit and Inspections Management System
- Designed from the ground up for Microsoft Windows - making it easy to learn!
- Stores applications for all types of permits for easy lookup.
- Track approvals from other departments so you know where an application stands.
- Tracks other requirements such as ADA compliance, asbestos certification, etc.
- Automatically calculates permit fees based on your fee schedules.
- Prints the permit for you - as many copies as you need.
- Stores all requests for inspections so you can quickly print your schedule.
- Prints your inspection tickets - single tickets or all tickets for a specified date.
- Prints temporary and permanent Certificates of Occupancy.
- Many standard reports take just seconds to view or print including:
  - ✓ Activity for a specific month
  - ✓ Activity for a date range - 1 day, 1 week, etc.
  - ✓ Census Bureau report (404)
  - ✓ Daily Revenue Report
  - ✓ Permit history for a given address
  - ✓ Inspection histories for permits
  - ✓ Outstanding inspection violations
  - ✓ And more...
- Numerous options allow you to customize the system to fit your needs:
  - ✓ Fee schedules can be based on work value and per/item or square foot.
  - ✓ Multiple User-Defined Tables like Project Codes, Types of Inspections...
  - ✓ 3 levels of security
  - ✓ And more...
- You can also track inspections for code violations such as weeds or junk cars.
- Keep complete information on contractors:
  - ✓ The usual - name, address, phone numbers, contact name.
  - ✓ State license and local license(s) expiration dates.
  - ✓ Types of permits qualified for.
  - ✓ Year-to-date value of permits taken out.
  - ✓ And more...
- Keep track of pending permits and C/O's - includes a tickler file for:
  - ✓ Reviewing applications awaiting approval(s).
  - ✓ Reviewing expired temporary Certificates of Occupancy.
- You can lookup permits by permit #, contractor, address, owner's name, or tax map #
- And many more features to assist you in managing your critical information.
